★☆☆☆☆ **Poor QC.**

Had to return it as there was a "lump" at the weld causing a thumping in the saw.

I purchased the S621214 [62x1/2x14T] blade for my bandsaw. I intend to cut steel various steel, brass, etc. raw stock. I was amazed how well it cut. It went through 1/4" steel as expected-smooth and quickly. Tested cutting 1/2" steel. Cut as expected on 1/2" steel as well, Did required coolant on this cut as expected. Just order two more. Don't think you will be disappointed. Well worth the money!

★★★★★ Can withstand high temps without dulling the blade

Outstanding quality blade, Cuts through 1.5" aluminum like its wood, put this on a cheap Central Machinery band saw thats been beat on for years, this blade transformed it into a great working tool, it was headed for the garbage can, but with this blade its worth keeping .

★★★★★ So Far - Excellent!

September 6, 2016

Verified Purchase

I received the blade on time and just put it on my bandsaw yesterday. I've been cutting strips of walnut, cherry and hard maple for some custom kitchen utensils; so far the blade cuts beautifully. The 1/2" width makes a world of difference when cutting hard woods; very straight lines and not bogging down. Time will tell how well the blade performs but to date, it's 5 stars. BTW - I love the blade guard that comes with purchase; I removed it and placed it over the blade I took off the machine; saves a lot of finger punctures when handling these sharp teeth.

★★★★★ Did not work for me.

This blade did not cut melted butter. I ended up having to use a jigsaw to get the cuts done.

I've just been cutting soft wood with this blade but this and a cheap pair of earmuffs changed an old 1980, louder than heck, band saw by Skil into an old, louder than heck band saw that is usable.
